To Whom It May Concern:

Please be advised that any test kits sent by your company to DiagnosTechs, Inc. are considered as exempt human or animal specimens and are unlikely to contain infectious substances or cause disease in humans and animals.

When the sample tubes are packaged according to the instructions, each kit contains HUMAN SALIVA AND/OR PRESERVED STOOL SPECIMENS in triple-sealed containers. The packaging system meets the guidelines of the United States Postal Service and International Air Transport Association (IATA).

Samples received from physicians or patients from outside the United States are for medical testing and diagnostic purposes only. Samples must be shipped according to our instructions to arrive at the laboratory within the stability period of the test(s).

DiagnosTechs, Inc. is a CLIA licensed laboratory and maintains a 25 year record of superior performance during accreditation inspections. Presently the laboratory is accredited by The Joint Commission (the largest private U.S. accreditation agency) and the State of Washington Office of Laboratory Quality Assurance.

If you have any further questions or concerns, please don't hesitate to call.

Sincerely,

Matthew Stoner, PhD
Associate Laboratory Director
